## Press Release: BRE partners with 2degrees

Date: 09.03.2009

BRE has formed a partnership with 2 degrees, the collaboration service for sustainable business. 2 degrees' mission is to help organisations accelerate the implementation of their sustainable business strategies. It does this by making it easier for them to acquire knowledge, collaborate and build the new, low carbon business ecosystems they require in order to reduce their own carbon footprint, build competitive advantage and mitigate risk. BRE have been chosen as a high quality content partner to provide case studies, reports and technical input into debate forums and webinars that 2degrees will host. This will give clients access to BRE's leading advice and new knowledge on sustainability.

**Naomi Wells, Commercial Director for BRE** who will lead on the partnership said *"BRE are delighted to become partners with 2degrees, the network provides a fantastic platform to share our experience and technical knowledge, with industry leaders who are seeking to tackle Climate Change. We look forward to contributing to debates, forums and webinars in the very near future."*

**For more information, please contact Naomi Wells, 01923 664880, [wellsn@bre.co.uk](mailto:wellsn@bre.co.uk).**

### Notes to the editor:

**BRE** has been *building a better world* for almost 90 years through cutting edge research, consultancy and testing services. Our unrivalled knowledge in regard to sustainability and innovation is now used across the construction industry and in the corporate world creating better buildings, communities and businesses. BRE is part of the BRE Group of companies owned by the BRE Trust, a registered charity. The profits made by BRE go to the BRE Trust the largest UK charity dedicated specifically to research and education in the built environment. [www.bre.co.uk](http://www.bre.co.uk)

**2degrees** is the collaboration service for sustainable business. At its heart is an actively managed, online collaboration platform focused on helping organizations accelerate the implementation of their sustainability strategies by providing services such as online event management, supply chain engagement, partner recruitment and ecosystem development, needs to solutions matching and knowledge transfer. The networks help transform clients' access to the information, contacts, partnering and commercial opportunities necessary to achieve their sustainable business goals quickly and adapt to the challenges of an economy in transition. Since its launch early 2008, the network has grown to over 2,000 senior public and private sector sustainable business leaders, solutions providers and policy influencers. Among our partners are The Climate Group, Carbon Trust, EcoSecurities, Forum for the Future, MITIE, CISCO, and others.
